

BIOGRAPHY – FULL

Sam Cawthorn is the current Tasmanian 2009 YOUNG AUSTRALIAN OF THE YEAR. Less than 3 years ago he was involved in a major accident and DIED, thankfully he was resuscitated but left with an amputated right arm and a permanently disabled right leg.

Sam is now a highly sought after International Communicator and Opportunist. He has a background as a Youth Futurist and highly skilled musician. He has spoke on 4 continents to over 70,000 people, while remaining at the forefront of global trends and gazing beyond impossibilities into realms of possibility. His conversations challenge and awaken mindsets that will leave you with the best dinner table conversations for years to come.

Sam demonstrates the awesome power of human strength through his simple yet life changing story. Doctors told Sam he would NEVER walk again, yet after 5 months in hospital and a year in a wheelchair he has proved those claims wrong. Sam is also one of the few people in the WORLD who can play guitar with an above elbow amputation.

Sam continues to break through physical, emotional and mental barriers, and is now travelling around the world sharing the tools and strategies he used to conquer adversity, while inspiring others to overcome their own barriers to achieve the impossible. Sam continues to develop his conversations and will soon be studying at Harvard University in the USA.

Sam's messages are uniquely designed for each group of people fortunate enough to hear him. He captivates through stories of hope for the future, he empowers through his story of life after death and he delivers a call to action for your staff, your students, delegates or whoever is fortunate enough to listen.
